

VIRGINIA
INFANT & TODDLER SPECIALIST
NETWORK

“Achieving Excellence in Early Care”

The Virginia Infant & Toddler Specialist Network strives to achieve excellence in early care by increasing the educational level and skills of those who care for infants and toddlers, whether in family homes or in centers. It also serves to link existing community resources that support healthy, safe, and nurturing care for infants and toddlers.

Virginia Infant & Toddler Specialist Network regional offices have been established, and highly qualified specialists in infant and toddler development have been hired for each region. The specialists provide three levels of service designed to strengthen the capacity of early care and education programs to deliver high quality services:

- On-site consultation, mentoring, and support for selected programs using quality improvement plans.
- Training and technical assistance to groups of caregivers/teachers and directors.
- Resources and linkages to existing professional development opportunities.

For more information, please contact your regional office infant and toddler specialist.
